

## Sage Intacct

# Dashboards for Vacation Rental Management

Visually explore real-time operational data to gain critical insights

RevPAR by Month, Year

## Executive Summary

The Sage Intacct acclaimed suite of cloud financials gives property managers complete control and visibility into the range of financial metrics that matter. But what about the underlying operational metrics that drive those numbers?

Sage Intacct dashboards give real-time visual access to your operational data, so you can uncover key insights faster. Sage Intacct helps you get—and stay—ahead of competitors, identify threats and opportunities, and improve your operating efficiency.

### Track ADR, RevPAR, Occupancy, and More

Sage Intacct speaks your language. See your business in real-time with sophisticated KPIs for short-term rental and hospitality businesses.

### Calculations made easy

Use any of the predefined calculations or create your own to see statistical counts and specific slices of your business. Explore any dimension or periodicity.

### Instant insight across dimensions

See RevPAR by year by property, chart ADR vs. last year by booking source, or add more dimensions like owners, booking channel, region, entity, property, and property type.

### Drill down to the details

When you find areas to investigate, just click to dive deeper into granular details and get the answers you need about your operations.

### Visualize all your data in one place

With VRPlatform™, Sage Intacct automatically aggregates all your data from your property management systems, human resources systems, payroll applications, and more to quickly chart, analyze, and report on all details of the business.

## More than 30 Chart Types

Present your data in any of dozens of graphs, charts, and interactive visualizations.

## Complete Formatting

Use bolding, color-coding, and fonts to highlight important results.

## Pre-Built & Custom Dashboards

Start immediately with dozens of role-based dashboards or use the drag and drop builder to create your own.

“

*We can actually track our performance to see how Effortless is doing and budget for the future, which we haven't been able to do in past years.*

”

Taylor Hills, Co-founder & CEO  
Effortless Rental Group  
*Ximplifi & Sage Intacct Customer*

## Improve business agility while saving hundreds of hours

With best-in-class, multi-dimensional visibility of your income statements, balance sheet, statement of cash flows and more, Sage Intacct enables you to slash time spent checking the accuracy of your financial data and start making strategic decisions that will impact your business.

## Start leveraging real-time operational insights for your VRM business

Ximplifi is a certified Sage Intacct partner offering CFO advisory and professional accounting services for property management companies.

We've helped over 100 operators implement financial systems like Sage Intacct to streamline and automate time-consuming accounting processes like financial reporting, expense management, monthly owner statements, and more.
